

Gulf Coast International

The Better Alternative for New Systems, Rebuilds and Repairs

GCI (Gulf Coast International) was formed in 2003, through the merger of Gulf Coast Electric and Gulf Coast Brake and Motor. Both companies have successfully served the drilling industry since 1987.

The company is specializing in the supply, upgrade, refurbishment and repair of drives, brakes, and control systems for the drilling industry.

We have a long tradition of supplying replacement parts and service for all brands of SCR systems. Our experienced technicians in the electronics repair facility can analyze and repair literally all electronics boards used in SCR systems.

We have repaired, refurbished and remanufactured Eddy Current Brakes for nearly 25 years. Our customers appreciate the superior quality that our material selection and repair processes provide.

GCI brings together a unique combination of drill rig know-how and with unmatched product offerings.

GCI features SCR and VFD solutions to the drilling industry and is dedicated to your rig power need both on and off-shore. We can provide the most cost effective and reliable SCR and VFD systems in the industry.

If you are looking for a new system, upgrade, rebuild or repair, GCI is simply the better alternative. We bring together world class technology with local assembly, service and support.

The Better Alternative for New Systems, Rebuilds and Repairs

SCR Systems and Upgrades

- Complete SCR Houses
- Digital SCR Systems
- GCI Analog SCR Systems
- Digital SCR Upgrade
- Generator Control
- System Engineering
- Turn Key Delivery

Brake and Motor Repair

- Remanufactured Eddy Current Brakes
- New and refurbished Magnet Assemblies
- New and refurbished Rotors
- Brake Cooling System
- Motor Repair

Variable Frequency Drive Systems

- Complete VFD Houses
- Top Drive Houses
- Generator Control
- System Engineering
- Turn Key Delivery

Control Systems

- GCI Brake Control System
- Generator Control
- SCR Diagnostic System
- Jacking System Control
- Close Circuit TV Monitoring System
- Engine Monitoring and Annunciation Panel

Service, Parts, Repair and Training

- 24/365 Emergency Service and Support
- SCR/VFD Field Service
- Brake Field Service
- Commissioning and Start-up
- New and refurbished SCR Parts and Circuit Boards
- SCR Circuit Board Repair
- Generator Control Parts and Repair
- Repair and Certified Injection testing of Circuit Breakers
- Training
